Make the Outdoors Great with a Custom Porch by DiFabion

As spring finally begins to emerge from the dreary shadows of this bitter winter, it's nice to start dreaming of a time when we can all enjoy the sunshine! If you and your family love to enjoy an indoor/outdoor lifestyle all year-round, a patio that suits all of your needs and comforts is a necessity. Like all remodeling projects, porches can vary in price dramatically. Here at DiFabion Remodeling, we classify the differences in porches (and the pricing) with labels of "good, better, and best." Learn the differences in these remodel projects and determine which one is best for you by reading our latest blog!

TESTIMONIALS

"DiFabion was the only company I contacted about this project because I knew they were all we would need to get the job done. The crew, which included a project coordinator, a lead carpenter, and two other carpenters, were by far the most skilled and professional craftsman I have EVER had work in my home. I could go on and on about the quality of these men—their work and their work ethic were beyond expectation."

PROJECT SPOTLIGHT

The existing backyard included a weathered deck situated on a damp, wooded lot; a paradise for mosquitos that resulted in an onslaught of bug bites. This made it nearly impossible for this family to enjoy their outdoor space. They needed a modern, rustic sanctuary while staying true to the character of the original home. The unique features of this custom porch include a decorative stamped

concrete patio in a plank driftwood pattern, dry stacked stone façades, and roughly sawn cedar trim with earthy tones and intricate wood accents. This stunning new porch brings together the peacefulness of the outdoors and a family's much-needed desire for rest and relaxation for years to come!
